

The Recycling & Waste Carts are compatible with all semi and fully-automated collection systems. Each cart is equipped with heavy-duty roll-out wheels and an easy-grip handle, making all sizes easy to transport. The lid flips up to allow for quick emptying and can be locked down for enhanced security. They can also be customized with openings and custom stamping.

**FLEXIBLE**

- Endless combinations with size and color of cart, openings, labels, custom stamping on cart and also on the slot
- Lid locking options: External Hasp (requires padlock) or Internal Lockjaw® lock (key activated)

240L shown with cans/bottles opening on lid

**Openings (can be custom stamped at top and bottom):**
