

# Ergonomic Rigid Insert

## SECURE COLLECTION CONSOLE INSERT

"Based on objective measures and when compared to ergonomic design/usability guidelines, the preferred console insert is the All Source Plastic Insert." – Humantech\*

### EFFICIENT

- Save 2/3 the service time with the Ergonomic Rigid Insert injection molded from high density poly-ethylene compared to traditional console bag
- Multi-directional – cannot put insert in backwards

### ERGONOMICS

- No more bending over; ergonomic insert can be pulled straight out of console without the need to squat
- Easier to handle than traditional console bag with an even balanced grip
- Lip rests on cart when emptying contents
- Neutral posture during handling
- Lightweight design allows for easy deployment and removal

*\*For over 30 years, global companies have relied on Humantech for workplace improvements. They have the largest consulting team of Board Certified Professional Ergonomists on staff.*

Lip rests on cart while dumping content

Paper distributes evenly for easier removal

Easy stacking for transporting and storage

No bending required to empty

### Specifications:
