

All Source USA is the leading North American manufacturer and distributor for the most innovative line of security containers in the document destruction industry. All Source's collection includes durable and secured shred carts, executive consoles, secured desk-side collection containers, and recycling containers. All Source has expanded this year, now offering quick turnaround times from 4 fully stocked warehouse and distribution centers throughout the US and Canada. In addition to our North American East Coast warehouse, West Coast locations in Los Angeles and Sacramento we have opened a new warehouse in Charlotte, North Carolina to better service our East coast customers.

### The DuraFlex Console:

The DuraFlex is designed with ultra strong poly components that reinforce all the points where traditional consoles fail. The ultra strong modular base protects the door at its greatest impact points and allows the console to slide easily. 180 degree nylon hinges ensure the door is out of the way during emptying and doesn't damage the melamine when under pressure. Nylon bag hooks increase efficiency and make the bags fit tight so no paper misses the bag. It's light weight design and improved strength makes it easy to set up at a customer location. The console can be branded with ID badges, and the hinges, base and hooks are available in custom colors. The DuraFlex gives you the efficiency, durability and flexibility you need making it an asset to your company for many years.

### New Lockjaw Shred Carts:

No more padlocks! The lockjaw is now available on all All Source E-Series carts and I-Series carts. These include our 120, 240 and 360 Liter carts and 65 and 95 gallon carts. The Lockjaw™ internal locking system is the future of efficient paper and confidential document collection. It is part of the One Key Solution to improve collection efficiencies for your employees. It provides added security and can be keyed to match most existing key codes. It is a proven locking system that secures the lid to the container to prevent tampering. The Lockjaw™ internal locking mechanism comes with a full five year warranty. A strong competitive advantage for your company. No padlock required.

### The One Key Solution:

All Source is also the innovator of the One Key solution which greatly increases collection efficiencies for collection employees. All carts, consoles and desk side collection containers can be opened with one key and can be matched with existing key codes. A One Key Solution is designed to improve the efficiency of the collection process, a value added service for our customers to create ease of collection saving you time and money.

### Deskside Collection Containers:

The Shredinator II and PDC (Personal Document Container) offers extended service to your customers right at desk side. They reduce liabilities associated with the lazy toss and collect more paper. They are cost-efficient alternatives to the traditional console, particularly where space is limited. The Shredinator II is an excellent solution for any office where a larger container is not feasible or economical. It has a holding capacity up to 60lbs of paper comparable to most traditional office consoles. The body is specifically designed to guide paper into a stack to maximize the container's capacity allowing you to collect more paper. The 9 Gallon PDC (Personal Document Container) has a holding capacity up to 30 lbs and is perfect for desk side collection. It is designed to fit beside or under a desk or counter to secure sensitive documents, at arms reach, right at the workstation.
