

SUPERIOR ERGONOMICS AND EFFICIENCY

The Ergonomic Insert is a champion of efficiency and ergonomics. Requiring just 35% the collection cycle time of a traditional console bags (17s vs 41s)*, the ergonomic insert allows you to service more consoles in less time.

The rigid shape, and easy rest grips allow the ergonomic insert to be easily lifted and tipped into a cart with no bending and squatting required, improving ergonomics and reducing operator fatigue.

The capacity of the Ergonomic Insert is limited to under 32 gallons to ensure Joint Commission Compliance, allowing equipped consoles to be used in hospitals and other medical facilities.

Specifications:

Ergonomic Rigid Insert			
Dimensions (WxDxH)	Weight	Capacity	Max Load
13.5"18.5"x29.5"	7 lb	19 gal	60 lb

Features:
