

## 65 GALLON SECURE COLLECTION CART

The Defender R65 provides an additional option for secure document protection within the All Source Defender Series collection of containers. Constructed with HDPE plastic and featuring an industry leading wall thickness, the Defender R65 is a durable long lasting choice.

Available with a locking hasp with a molded paper slot for document collection. The R65 is equipped with a silent running non marking 10" rubber wheel with a 3/4" zinc plated axle for strength and durability. The double drag rail on the bottom of the cart helps to distribute heavy loads and increase the life of the cart, while the molded tilt feature makes it easy to move and redeploy.
